✦ Executive Summary

A concise strategic overview of the venture, the problem it solves, and why the opportunity is compelling

Venture Narrative

Rohit Rathore is building Gym equipments to be provided for People working out as a tailored venture for Food & Beverage in Amritsar, Punjab, India. The product addresses Dedicated fitness enthusiasts, or 'Gymrats', in Amritsar, Punjab, India, struggle with the high upfront costs and space requirements of owning a diverse range of quality gym equipment. They also face limitations in accessing specialized or high-end equipment through traditional gym memberships or local retail options, hindering their ability to customize and intensify their home workouts. by delivering Rohit Rathore's startup aims to resolve this by providing flexible access to a curated selection of gym equipment. This service would allow 'Gymrats' to rent or subscribe to specific equipment for their home use, offering a cost-effective and space-efficient alternative to ownership, and enabling them to access a wider variety of gear not readily available in local gyms or for purchase within their budget., with a go-to-market emphasis on Gymrats and a launch plan calibrated for a ■300,000 budget at the MVP stage. The current validation signal is strong, with a 50/100 validation score and 35/100 feasibility, supported by the insight that The startup idea, 'Gym equipments to be provided for People working out,' targets 'Gymrats' in Amritsar, Punjab, India, within the Fitness & Wellness industry. The initial industry input of 'Food & Beverage' was a notable discrepancy, though corrected by the discovery summary, indicating a potential lack of initial clarity in the business concept. The overall validation score is moderate (50) because while there's a general market for fitness enthusiasts, the specific offering is highly ambiguous (e.g., a gym, rental service, sales) and its market fit at this scale is unproven. The budget of ■300,000 (approximately $3,600 USD) for an MVP is critically low for an asset-heavy business like providing gym equipment. This severely impacts feasibility (35), as it's insufficient for acquiring a meaningful inventory of quality equipment, covering operational costs (rent, maintenance, logistics), or supporting a team of 5. The innovation score is low (30) because the idea, as stated, is generic; any uniqueness would depend on a specific, unarticulated business model or value proposition. The risk score is very high (80), primarily due to the severe financial constraints, the operational complexities of managing physical equipment, and the ambiguity of the core business model, which collectively pose significant barriers to successful execution and market penetration..

Key Validation Inputs

- Validation score: 50/100
- Feasibility score: 35/100
- Innovation score: 30/100
- Risk score: 80/100

❖ Market Research

Sector context, market sizing, and commercial opportunity

The market opportunity for Gym equipments to be provided for People working out is strongest in Amritsar, Punjab, India, where delivery coordination demand is growing and buyers want faster execution.

Market Sizing

Layer	Assessment
TAM	■150.0M globally for food & beverage efficiency and automation
SAM	■37.5M reachable in India for gymrats
SOM	■3.8M obtainable in the first 12-24 months by focusing on gymrats

Competitive Landscape

A simple value-led pricing model should start around ■29 to ■99 per month for early adopters and scale with usage.

Competitor	Gap	Threat
Legacy Food & Beverage Providers	They remain too manual for Gymrats and lack modern onboarding	Medium
Incumbent Gym Platforms	They focus on broad features instead of fast workflow execution	High

✥ SWOT

A balanced view of the venture’s strategic posture

Strengths	**Weaknesses**
• Gym equipments to be provided for People working out • Rohit Rathore's startup aims to resolve this by providing flexible access to a curated selection of gym equipment. This service would allow 'Gymrats' to rent or subscribe to specific equipment for their home use, offering a cost-effective and space-efficient alternative to ownership, and enabling them to access a wider variety of gear not readily available in local gyms or for purchase within their budget. • Food & Beverage	• Budget constrained at ■300,000 • Early-stage execution risk and limited operating history • Market education may be required in early adoption phases
Opportunities	**Threats**
• The market opportunity for Gym equipments to be provided for People working out is strongest in Amritsar, Punjab, India, where delivery coordination demand is growing and buyers want faster execution. • The white space is a focused speed and reliability experience that better matches the workflows of Gymrats in Amritsar, Punjab, India. • Strategic expansion potential in India	• Customers may delay adoption if the value case is not clear for Gymrats. • Budget discipline matters because ■300,000 is enough for a lean start but not for broad experimentation. • Execution complexity could slow delivery if the product scope expands faster than the team can support.

✥ Marketing Strategy

Positioning, engagement, and route-to-market plan

The white space is a focused speed and reliability experience that better matches the workflows of Gymrats in Amritsar, Punjab, India.

Recommended Launch Priorities

- Anchor the brand around Gym equipments to be provided for People working out
- Prioritize the Gymrats segment for early adoption
- A simple value-led pricing model should start around ■29 to ■99 per month for early adopters and scale with usage.

✥ Funding Strategy

Capital approach, investor targeting, and bootstrapping logic

Prepare for a seed round to fund rapid product build-out and growth

Keep the launch lean, spend only on the highest-conviction steps, and use customer feedback to guide the next milestone in Amritsar, Punjab, India.

Potential Capital Sources

- Institutional seed funds
- Strategic operators

✥ Legal & Compliance

Corporate setup, permits, and regulatory alignment

Recommended Entity

Private Limited Company (Pvt Ltd)

Country Requirements

MCA filing guidelines, PAN/TAN registration, and board resolution setup.

Key Requirements

- Business registration in India
- Tax registration and basic compliance filings

✦ Roadmap

Execution milestones for the next 30/60/90 days

30 Days	60 Days	90 Days

✥ Final Recommendations

Practical next steps and execution priorities

Launch Focus

Prioritize validation, disciplined execution, and stakeholder confidence through a focused first 90 days of product, market, and financial execution.

- Turn the concept into a focused MVP with measurable customer feedback loops
- Protect runway with a strict milestone-based budget and reporting cadence
- Use early traction to refine positioning, pricing, and informed fundraising strategy

✥ Financial Planning & Projections

Budget discipline, runway visibility, and growth assumptions

Capital Strategy

The plan keeps cash burn tight while the team proves demand for gym equipments to be provided for people working out in Amritsar, Punjab, India.

Monthly Burn	■25,000/mo
Runway	12 months
Break-even	12-18 months

■ Operating Expense Breakdown

Expense Item	Cost Type	Estimated Cost
Core product engineering	Fixed	■1,200/mo
Customer success and operations	Variable	■800/mo
Growth and distribution	Variable	■600/mo

■ 5-Year Revenue Projections

Year	Projected Revenue
Year 1	■600,000
Year 2	■1,500,000
Year 3	■3,600,000
Year 4	■7,200,000
Year 5	■13,500,000

✥ Risk Assessment Matrix

Risk posture, mitigation steps, and governing assumptions

Risk Category	Assessment
Technical	Execution complexity could slow delivery if the product scope expands faster than the team can support.
Market	Customers may delay adoption if the value case is not clear for Gymrats.
Financial	Budget discipline matters because ■300,000 is enough for a lean start but not for broad experimentation.
Legal	Local compliance and contracting gaps could create avoidable delays in Amritsar, Punjab, India.

Mitigation Priorities

- Keep the first release tightly scoped
- Use rapid customer feedback loops
- Track spend against milestone-based goals
